Jim-

Wanted to let you know we're a bit delayed in getting comments out. I'm hoping we can talk on the phone either April 7 or 11 and then written comments to you a few days after that? Let me know your schedule. Thanks.

Eva, Please hold your comments for the Schnitzer Dust Monitoring Results.

DEQ would like to have an internal discussion before EPA comments. The air particulate issue requires some clarity prior to moving forward.

In answer to your request regarding the change to the monitoring plan, I have attached Matt's approval, below.

Thanks Jim Orr

**Subject:** SSI Additional Dust Monitoring Request

Alex and Matt, we have briefly talked about requesting that SSI perform additional dust monitoring at their site.

I propose that SSI conduct dust monitoring in July, August, October, and January as described in their most recent work plan. The latest work plan has a 4 day sampling interval and allows for more representative samples during high dust events.

After the four events we could consider next steps.

I would like to get SSI going on this request soon.

Do you agree with this request?

Could you send me the October 6, 2014 email from DEQ approving Schnitzer's modification to the sampling procedures in the May 7, 2014 Dust Monitoring Plan? We hope to provide comments by April 4. Thanks.
